DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John V. Stewart (Applicant's representative) on 09/08/2008.

The application has been amended as follows:

- a. In line 23 of claim 12, "housing of a wheelie bin (10 Figure 1)," has been deleted and replaced with --housing of a wheelie bin (10),--.
- b. In line 24 of claim 12, "housing of the apparatus (10 Figure 10 or 14)," has been deleted and replaced with --housing of the apparatus (10),--.
- c. In line 23 of claim 13, "produces a housing (10 Figure 10 or 14)" has been deleted and replaced with --produces a housing (10)--.

Election/Restrictions

1. Claims 1-5, 7-11, and 18 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 12-14 and 17, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Art Unit: 3618

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 05/29/2008 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

- 2. Applicant's election with traverse of Species 5 under Group I in the reply filed on 06/27/2008 is acknowledged. The traversal is on the ground(s) that the amendment to the claims distinguishes the apparatus claims over the prior art. Furthermore, the restricted process claims have been amended to include all the subject matter of the apparatus claims, thus overcoming the restriction requirement.
- 3. Product claims 1-5, 7-11, and 18 are hereby fully examined for patentability. Process claims 12-14 and 17 are hereby rejoined and fully examined for patentability. Claims 6 and 15-16 are cancelled.

Priority

4. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Art Unit: 3618

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 10/15/2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

6. Claims 1-5, 7-14, 17-18 are allowed. The following is an examiner's statement of reasons for allowance: The prior art when taken alone or in combination with another does not teach or fairly suggest at this time an apparatus for use in the storage and transportation of recyclable waste, the apparatus comprising- a housing (10) having a bottom (16) for standing on the ground, a rear wall (20), and a pair of opposed side walls (22), the housing providing a space (48) accessible from the front of the housing and arranged to receive at least one recycling box (12) having a base (30), four side walls (32) and an open top; supporting means (14,52,64,86) for supporting the or each recycling box in the space such that the or each recycling box can be slid into the housing from the front and such that when the or each recycling box is in the housing the front-facing side wall(s) of the recycling box(es) substantially close(s) the front of the housing and the or each recycling box is covered; a handle (26) adjacent the top and rear of the housing; and a pair of wheels (28) arranged to be assembled with the housing adjacent the bottom and rear of the housing such that the housing can be tipped rearwardly using the handle so that the wheels engage the ground, so that the bottom of the housing no longer engages the ground and so that the apparatus can be moved on the wheels using the handle to move it; wherein the supporting means is arranged to be assembled with the housing; and the housing is arranged such that, prior

Art Unit: 3618

to assembly of the supporting means and the wheels with the housing and prior to insertion of the recycling box(es), a plurality of identical such housings can be stacked one substantially inside another so that said one housing extends into said space of said other housing. In particular, as stated in pages 9 and 10 of Applicant's Remarks filed on 06/27/2008, the housing is formed such that one such housing is inserted into another identical housing to be stacked such that a portion of one housing extends into a space of the other housing when in the stacked position wherein said space is accessible from the front of the housing and arranged to receive at lease one recycling box having a base, four side walls and an open top.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The documents cited in the Notice of References Cited attached hereto contain subject matter that may be of interest to Applicant.
